

ENGLISH LANGUAGE ARTS

Structured study guides that bring literature to life

If your student loves to read — or needs extra structure to get more out of their reading — Novel-Ties is a flexible way to build language arts skills through real books. Instead of page after page in a workbook, students engage with novels of their choice and use the study guide to practice vocabulary, comprehension, analysis, and writing as they go.

Curriculum Overview

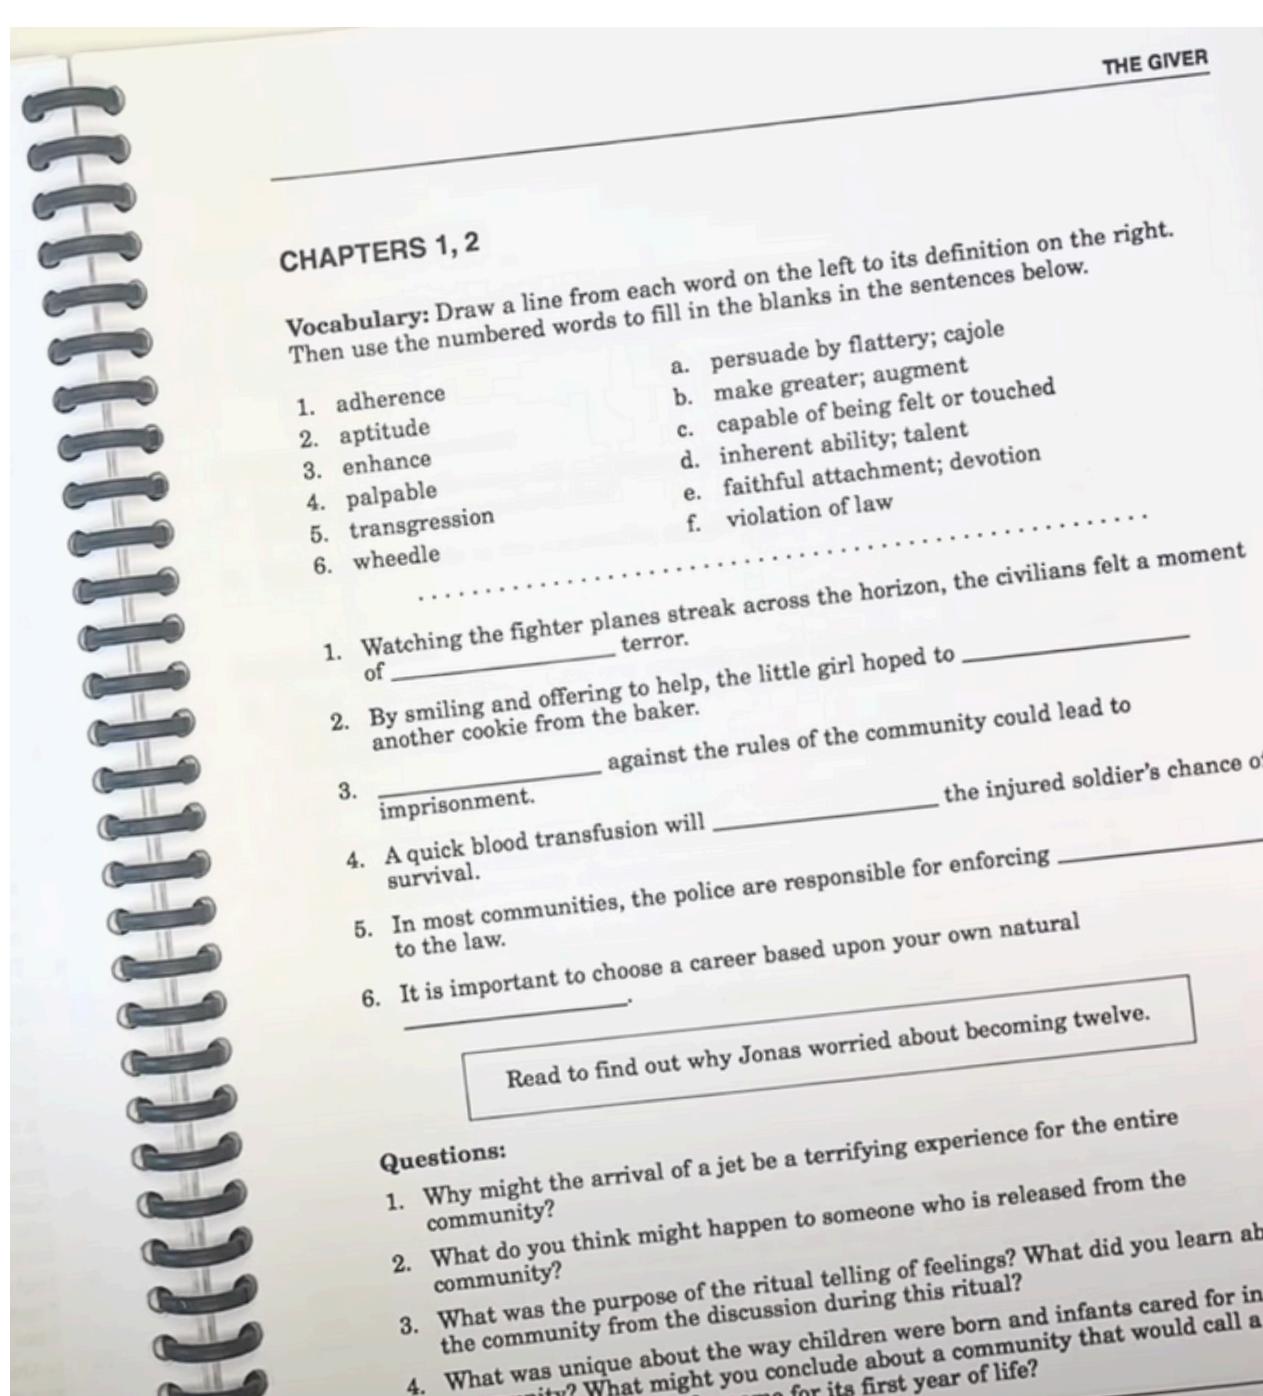

- Wide Selection:** Hundreds of titles, from early elementary through high school.
- Format:** 24–35 page reproducible paperback guides.
- Timeframe:** One novel plus its guide usually takes 3–6 weeks.
- How It Works:** Students read a section of the novel, then complete chapter-aligned activities — vocabulary, comprehension, literary analysis, discussion, writing, cloze, and extension.
- Engagement:** Keeps reading fresh by pairing skill-building with stories that fit the student's age, level, and interests.

Why Families Like It

With so many titles to choose from, Novel-Ties lets students practice ELA skills through stories they actually enjoy reading.
