

SCIENCE & SOCIAL STUDIES

A Fun Way to Explore Oregon and Enhance Learning!

Looking for a hands-on way to bring Science and Social Studies to life for your K-8 student? Consider adding the Events & Experiences (E&E) to your PCS - an optional BCA resource designed to help you explore Oregon and connect real-world adventures with your student's education.

- ★ **Explore Oregon:** Visit local spots like historic sites, museums, parks, waterfalls, and more!
- ★ **Flexibility:** No deadlines! Pick the events that fit your family's schedule.
- ★ **Simple:** Easy-to-use Reflection Sheets tie the experience to Science and Social Studies standards (optional for work samples).
- ★ **Family-Friendly:** Hands-on learning that makes education exciting and memorable.

Steps to take if you're interested:

1. Tell your Learning Coordinator you'd like to add Events & Experiences to your PCS Planned Course of Study.
2. Get access to the list of events and reflection documents.
3. Start exploring and have fun making memories while learning together!

For more info or to get started, contact your Learning Coordinator!
