

# Teaching Textbooks

## MATH

### An independent, stress-free math program for grades 3-12

Teaching Textbooks was created for independent learners and helps take the pressure off parents with step-by-step lessons, built-in practice, and automatic grading.

Each lesson walks students through new concepts with clear, down-to-earth explanations. Built-in hints, practice problems, and automatic grading help students learn at their own pace.

#### Curriculum Overview:

- Grade Levels:** Covers 3rd grade through Pre-Calculus.
- Courses Offered:** Math 3, Math 4, Math 5, Math 6, Pre-Algebra, Algebra 1, Algebra 2, Geometry, and Pre-Calculus.
- Lesson Design:** Audio-narrated instruction, interactive problem solving, practice sets, quizzes, and review built in.
- Independent-Friendly:** Requires little parent involvement — students can largely complete lessons on their own.
- Flexible Access:** Available as an app, online subscription, or on CD.
- Automatic Gradebook:** Tracks lessons, practice sets, quizzes, and exams for you.

Families can try the free trial before subscribing, and large-family discounts are available.
