

SOCIAL STUDIES

Bringing history to life through great books and meaningful stories

Sometimes a thick history book can feel overwhelming for younger learners. Kids Discover Magazines break topics down into short, colorful issues that kids actually want to pick up and read. Each one focuses on a single theme — like Ancient Egypt, American Symbols, or The Solar System — with pictures, diagrams, and bite-sized text that explains big ideas in a way kids can understand. BCA's Curriculum Specialists also provide guides to help you pace the magazines and turn them into a full plan, so families don't have to figure it out on their own.

Curriculum Overview

- **Grade Levels:** K–6th (bundled sets available at BCA).
- **Format:** 20-page magazines with lots of visuals and kid-friendly explanations.
- **How It Works:** Each issue is divided into 9 sections, about 15 minutes each — easy to use for short lessons.
- **Extra Support:** For grades 3+, free Teacher's Guides and Vocabulary Guides help parents turn each magazine into a structured curriculum.
- **Aligned & Reliable:** Content is standards-based and created with input from university experts.
- **No Ads, Just Learning:** Clean pages that keep kids focused on the subject.
- **Optional Add-Ons:** Interactive apps and online content available.
