

SOCIAL STUDIES

A structured yet flexible approach to history and geography, grounded in real books.

Inspired by Dr. Ruth Beechick's educational philosophy and Charlotte Mason's methods, BookShark's Reading with History curriculum balances guided instruction with independent exploration.

Curriculum Highlights:

- ✓ **Structured Yet Flexible:** The 36-week, 4-day schedule provides a clear framework, but the program is still flexible enough to fit into different family schedules and teaching styles.
- ✓ **Real Books for K-8th Grades:** Students enjoy a blend of historical fiction, biographies, and classic literature, with some books for independent reading and others for read-alouds.
- ✓ **Parental Support:** Includes parent guides to help coordinate lessons and grid charts that show which pages to read each day, ensuring a smooth flow.
- ✓ **Progressive History Coverage:** Starting with World Cultures (Level A) and progressing to World History (Levels G-H), the curriculum also integrates geography.

"What I love about it is that it doesn't cover only the history but it weaves history with culture, geography, and rich literature, making this the most holistic homeschool history curriculum"
