

## A practical, workbook-based math option for grades K-8

Evan-Moor Math Workbooks provide short, daily written practice in key math skills like computation, problem-solving, and number sense. Each page includes a quick mix of problems that review core skills, helping students stay sharp through consistent repetition. The simple layout and minimal prep make these a great fit for families who prefer paper-based learning.

### Curriculum Overview:

- **Grade Levels:** Kindergarten through 8th grade
- **Courses Offered:** Daily Math Practice (spiral review), Math Fundamentals (concept-by-concept), Skill Sharpeners Math (hands-on and visual), and Basic Math Skills (targeted review)
- **Lesson Design:** One page per day with short, mixed problems that reinforce key concepts
- **Independent-Friendly:** Students can typically complete pages on their own once concepts are introduced
- **Flexible Use:** Works well as a supplement, summer review, or light daily practice
- **Parent Support:** Includes answer keys and pacing suggestions to track progress
- **Cost:** Around \$15-\$25 per workbook; bundle options available

Families who enjoy a straightforward, pencil-and-paper approach appreciate how Evan-Moor supports steady math growth without adding screen time.
